INVITATION

Dear Esteemed Colleagues,

On behalf of the Korean Association of Robotic Surgeons (KAROS), it is our great pleasure to invite you to the International Symposium of the Korean Association of Robotic Surgeons 2027 (KAROS 2027), which will be held from May 27 (Thu) to 29 (Sat), 2027 at the Hyatt Regency Incheon Paradise City, Incheon, Korea.

Under the theme of "Beyond Boundaries: The Next Era of Robotic Surgery," KAROS 2027 will once again come together to explore the latest advances in robotic surgery and share our knowledge and experiences in this rapidly evolving field.

Over the past year, KAROS has continued to strengthen its role as an international platform for robotic surgery. In 2026, we welcomed 361 experts from 19 countries, a testament to the remarkable growth of our global community. We also signed Memoranda of Understanding (MOUs) with India's Association of Robotic and Innovative Surgeons (ARIS) and the Taiwan Robotic Surgery Association (TRSA), marking an important step toward strengthening international collaboration. Building on this momentum, we look forward to expanding our partnerships with robotic surgery societies around the world.

This year, we aim to enhance the symposium with advanced live robotic surgery demonstrations, unedited surgical videos, and multidisciplinary symposia, and MOU ceremony with new international groups potential. These programs will be enough for you to follow up updated robotic surgical system and technology. We will also introduce a travel grant conjunction to site-visiting program, along with surgical education tailored for novice robotic surgeons. To create a festive atmosphere for profound friendships, we will include engaging social programs and events that promise to enrich your experience at the conference and opportunities for scientific exchange and cooperation among colleagues from around the world.

We sincerely hope that this conference will serve as a forum for meaningful collaboration, innovation, and friendship, contributing to the safe and continuous advancement of robotic surgery worldwide.

We look forward to welcoming you to Incheon in the beautiful month of May and sharing an inspiring and memorable conference with all of you.

Sincerely,

Chang Moo Kang, M.D., Ph.D.

President
The Korean Association
of Robotic Surgeons

Jung Wook Huh, M.D., Ph.D.

Vice President
The Korean Association
of Robotic Surgeons

Hyungjun Kwon, M.D., Ph.D.

Vice President
The Korean Association
of Robotic Surgeons

HIGHLIGHT SESSION: Why You Should Attend KAROS 2027

Live Robotic Surgery

- Multiple Robotic Platforms
- Emerging Technologies
- International Joint Sessions
- Research Grant Proposal Session

KAROS LEVEL 2
Video Assessment Session

- Resident & Nursing Programs
- Site Visit Programs
- Networking & Social Events
- Travel Grant Program

Abstract Submission

Presentation Type: E-Poster | Oral | Video

- Hepatobiliary & Pancreatic Surgery
- Colorectal Surgery
- Endocrine Surgery
- Other Surgical Specialties
- Upper Gastrointestinal Surgery
- Breast Surgery
- Hernia & Abdominal Wall Surgery
- Artificial Intelligence, Digital Surgery, and Data Science

Travel Grants

for Outstanding Abstracts

500 USD

Awards

Best Oral Presentation
400 USD

Best Video Presentation
400 USD
